

# TORQUE WRENCHES CLICK-TYPE

The XR Pro is Norbar's top-of-the-range torque wrench, designed to withstand heavy use and meet the demands of modern industrial applications. With a torque range of up to 1,000 Nm, a clear mechanical click and excellent measurement accuracy, the XR Pro is a reliable tool when precision and durability are critical.

- Up to 1,000 Nm torque range for demanding high torque applications
- ±4% measurement accuracy, complies with ISO 6789-1:2017 requirements
- Clear mechanical click
- Easy-to-read scale and locking mechanism for quick and secure adjustment
- Two-piece design for easy transport and storage
- Available as a preset model
- Supplied in a durable carrying case
